

WELDING PRODUCTS

NOZZLE-KLEEN® • WELD-KLEEN® • LUBE-MATIC®

ENGINEERED PRODUCTS FOR EFFICIENT WELDING

Nozzle-Kleen® #3 Anti-Spatter

Spatter can accumulate on the welding nozzle, torch and other equipment, leading to blockages, uneven gas flow, or equipment damage. Nozzle-Kleen® #3 Anti-Spatter helps keep these components clean, extending their lifespan and maintaining consistent weld quality.

Part#	Item#	Case/Order#	Size	Units/Case
007033	1755895	1755894	20 oz aerosol	6

Nozzle-Kleen® 107A

Quick-drying aerosol spray that prevents welding spatter from sticking to nozzles and tips. It supports pre-heat, higher duty cycles, and high-temperature applications, making it ideal for fixtures and tooling protection. Designed for efficiency, safety, and versatility, it's a reliable tool for professionals.

Part#	Item#	Case/Order#	Size	Units/Case
YOR-107-A	1008304	1008225	20 oz aerosol	12

Weld-Kleen® HD2 Anti-Spatter

An anti-spatter used in welding to prevent molten metal droplets (spatter) from sticking to workpieces, nozzles and surrounding surfaces. Weld-Kleen® HD2 Anti-Spatter creates a protective barrier, enhancing welding quality and simplifying clean-up.

Part#	Item#	Case/Order#	Size	Units/Case
007036	1756064	1756063	20 oz aerosol	6

Welder's Anti-Spatter

Effectively prevents welding spatter from sticking to nearby metal surfaces, significantly reducing clean-up time and effort. The advanced water-based formula ensures a hassle-free clean-up without the need for harsh solvent cleaners, making welding projects smoother and more efficient.

Part#	Item#	Case/Order#	Size	Units/Case
03083	1003349	1003348	16 oz aerosol	12

 Non-Flammable - Black Cap
 Flammable - Red Cap

Non-Flammable Anti-Spatter

Non-Flammable Anti-Spatter creates a barrier on tools, workpieces and equipment, preventing spatter from sticking and simplifying cleanup. Unlike traditional anti-spatter sprays, it is formulated for versatility in environments with open flames or high temperatures. Silicone free.

Part#	Item#	Case/Order#	Size	Units/Case
007100	1755904	1755903	16 oz aerosol	6

Weld-Kleen® 350 AP

All Position (AP) features the same water-based anti-spatter formula as Weld-Kleen® 350 in a convenient, pressurized bag-on-valve aerosol can. It provides high performance and protection without harmful solvents or carbon dioxide. Ideal for professionals seeking a reliable anti-spatter solution with the convenience of an aerosol can.

Part#	Item#	Case/Order#	Size	Units/Case
007088	1008257	1008159	16 oz aerosol	6

Weld-Kleen® 350

Superior water-based anti-spatter, ideal for protecting parts, clamps, tooling, and fixtures on various base metals. It's non-flammable, versatile, and reliable for industrial or DIY welding and metalworking tasks, with easy application in various bulk sizes.

Part#	Item#	Case/Order#	Size	Units/Case
007090	1008275	1008193	1 gallon bottle	2
007091	1008183	1008183	5 gallon bottle	1
007092	1008184	1008184	55 gallon drum	1

Nozzle-Dip® HD

Premier water-based gel that minimizes spatter buildup on welding nozzles and tips. It offers superior cooling properties, extending the life of your equipment. The gel can be used on hot or cold equipment without migrating into the liner, providing reliable protection and efficiency. It's non-flashing, paintable, and versatile for dipping.

Part#	Item#	Case/Order#	Size	Units/Case
007094	1008236	1008137	32 oz jar	6

Why Choose Weld-Aid®?

Since the beginning, Weld-Aid® products have addressed key issues faced by welders, such as problems with tips and nozzles, wire feed, and post-weld clean-up. The Nozzle-Kleen® family of products maximizes tip, nozzle and diffuser life by preventing spatter buildup ensuring optimum gas coverage. Weld-Kleen® coatings minimize the need for grinding by preventing spatter buildup on parts and fixtures. The Lube-Matic® system maximizes and improves wire feeding as well as tip and liner life by cleaning and lubricating welding wire. These products consistently deliver superior performance, making them indispensable tools for professionals seeking efficiency and reliability in their welding operations.

Lube-Matic® Lube Pads

Black pads pre-treated with Lube-Matic® Cleaner & Lubricant to optimize the performance of all types of steel wire, ensuring exceptional wire feeding even in challenging conditions. Not recommended for aluminum.

Part#	Item#	Case/Order#	Size	Units/Case
007060	1008258	1008160	1 pack	6

Lube-Matic® Kleener Pads

Lube-Matic® Red Pads clean rust and dirt from wire surfaces, enhancing welding performance for all wire types, including aluminum. Ideal for professionals, they improve efficiency and reduce maintenance issues, delivering consistent results.

Part#	Item#	Case/Order#	Size	Units/Case
007061	1008260	1008162	1 pack	6

Lube-Matic® Wire Cleaner & Lubricant

Enhances the performance of all types of steel wire, ensuring smooth feeding even with poor cast, poor helix, rust or long feed liners. Improves wire feeding efficiency and extends equipment life. Not recommended for aluminum.

Part#	Item#	Case/Order#	Size	Units/Case
007037	1756327	1756326	4 oz bottle	6
